Public Aid Organization

The Public Aid Organization

It is a non-governmental, independent, and non-profit organization that operates based on a humanitarian approach grounded in a strategic plan aimed at promoting and entrenching the principles of human rights and building a developed civil society, in alignment with the global vision for sustainable development. The organization was established in 1992 by a group of volunteers and holds consultative status with the United Nations Economic and Social Council (ECOSOC).

Vision

A world where individuals live in full enjoyment of their rights and freedom of choice

Mission

Our organization is an independent, non-governmental, non-profit entity that serves the public interest. It is responsive, adaptable, and open to both national and global perspectives. We operate in accordance with the humanitarian values we have adopted, aiming to contribute to improving the quality of life, promoting human rights and democracy, and building an effective and progressive civil society. We support human development and protect individual choices through peacebuilding and the promotion of peaceful coexistence. We also work to strengthen the capacities of individuals and communities, encourage participation in decision-making, and promote resilience to prevent potential risks.

2024

Achievements

The number of funded projects reached 28, including 11 self-funded projects, benefiting a total of 48,434 individuals.

Ensuring human rights, preserving human dignity, and achieving social justice for all segments of society.

Working to support and promote pathways for achieving justice between women and men, to ensure the empowerment of all groups.

Developing community solidarity and building local networks, and achieving criminal justice for prisoners and victims of torture.

Adopting a comprehensive strategy to combat drug abuse in parallel with strengthening community security.

Improving education and protection systems for children and adults, and enhancing access to services for communities of people with disabilities and the elderly.

Enhancing and supporting sustainable environmental transformation, and developing national capacities to adapt to climate change.

Empowering youth to participate in decision-making is a step toward building more inclusive policies that respond to community needs.

Promoting transparency and embedding the values of integrity within institutions to ensure accountability and efficiency.
